

# MØBLER

- EN FILOSOFI -

## Kære Kunde

FDB Møbler er skabt til at give plads til mennesker. En filosofi der har været bøjet i eg og bøg og flettet ind i sæderne siden 1942. Mange nye designere er kommet til siden, men det grundlæggende er stadig som fra begyndelsen: At frembringe smukke, funktionelle møbler af høj håndværksmæssig kvalitet, som giver plads til det daglige liv i stuerne, køkkenet eller på børneværelset. Og som kan holde til det år ud og år ind. FDB Møbler har for længst skrevet sig ind i dansk designhistorie med klassikere, som er gået i arv gennem generationer.

*“Udover enkelthed, æstetik og funktionalitet tilstræber jeg altid at mit design indeholder en poetisk kvalitet.”*

## PRODUKTINFORMATION

Af naturlige grunde er Danmark et af de steder i verden, hvor vi går mest op i lys. Når det er mørkt udenfor, værdsætter vi lyset indenfor. For dansk design har lamper – og måske især loftslamper – været noget af det, vi har et særligt forhold til. Den lille Hiti loftslampe er et helt nyt og forfriskende bud på, hvordan denne tradition for lampedesign ser ud i dag. Formen er rund og organisk, og i kraft af den lidt fladtrykte facon, ser den lidt anderledes ud fra hver ny vinkel. Lampen fungerer som en enkeltlampe, fx over et lille bord, eller ophængt i en serie over et større område. Den fås både i en mat opal hvid og i en helt transparent udgave.

Hiti lamperne er skabt med blik for dansk designtradition, som delvist kommer udefra. Det kommer fra Philip Bro, som er født i Australien, men har boet i Danmark det meste af sit liv. Med en legende og ukonventionel tilgang til dansk design, har han arbejdet med nogle af de mest kendte design brands.

Hiti-serien er FDB Møblers første lamper.

## VEDLIGEHOLDEINFORMATION

Vi anbefaler, at man aftørres sin lampe med en antistatisk støveklud.

Snavsede overflader aftørres med en hårdt opvredet klud, der er skyllet i vand med lidt klart flydende opvaskemiddel.

Der skal omgående tørres efter med en ren, tør klud.

Brug ikke skarpe genstande såsom stive børster, svampe eller ståluld, når lampen rengøres.

Glas- og metalpendler kan med fordel aftørres med en fugtig klud.

FDB Møbler er udelukkende produceret af FSC-certificeret træ. Med FSC-certificeringen sikres, at der ikke fældes mere træ, end skoven kan nå at reproducere. Samtidig er FSC en garanti for, at dyr og planter beskyttes, og at de mennesker, der arbejder i skoven, er sikret uddannelse, sikkerhedsudstyr og en fornuftig løn. Når du som forbruger vælger FSC, er du med til at sikre naturen og de sociale forhold i de skove, som træet kommer fra. Med dit valg giver du din støtte til de skovejere, der har valgt at drive skoven med respekt for mennesker og dyr. For yderligere information – se [www.fsc.dk](http://www.fsc.dk).

# MØBLER

- A PHILOSOPHY -

---

*“In addition to simplicity, aesthetics and functionality, I always strive to imbue my designs with a poetic quality.”*

Quote Philip Bro

---

## Dear Customer

FDB Møbler was founded out of a desire to create furniture that makes room for people – a philosophy which has been shaped in oak and beech and woven into seats since 1942. New generations of designers have joined the team since then, but the fundamental mission remains the same: To produce beautiful, functional pieces of furniture made to high standards of craftsmanship that make room for everyday life in living rooms, kitchens and children’s bedrooms. And which can withstand wear and tear, year in and year out. FDB Møbler wrote itself into the annals of Danish design history long ago with classics that

have been passed down for generations. So even if your furniture is brand new, it is already an heirloom, because it is imbued with all the values that we were born with, and which are still honoured to this day when we produce our classics, relaunch furniture from our design archives, or introduce brand-new designs. We hope you will be happy with your new purchase, and that it will enhance your quality of life, as this has been the intention ever since our first pieces of furniture emerged from the drawing board.

## PRODUCT INFORMATION

For obvious reasons, Denmark is one of the places in the world where people take the keenest interest in light and lighting. When it’s dark outside, we really value the lighting in our homes and workplaces. When it comes to Danish design, lamps – and perhaps pendants in particular – have always played a special role. The small Hiti pendant is a new and refreshing example of how the Danish tradition for lamp design is evolving today. The shape is round and organic, and given its gently flattened shape, the lamp looks slightly different from every angle. The lamp works well as a single lamp, for example over a small table, or suspended in a series over a larger area. It is available in both matt opal white and in a completely transparent version.

The Hiti lamps are inspired by Danish design traditions, but with some foreign influences. For example from Philip Bro, who was born in Australia, but who has lived in Denmark for most of his life. Taking a playful and unconventional approach to Danish design, he has worked with some of the most well-known design brands.

Hiti-series is FDB Møblers first lamps.

## CARE INSTRUCTIONS

We recommend wiping the lamp using an antistatic dusting cloth.

Wipe dirty surfaces using a cloth dipped in water with a small amount of clear liquid detergent added, and then firmly wrung out.  
Dry immediately afterwards using a clean, dry cloth.

Do not use harsh objects such as stiff brushes, sponges or steel wool to clean the lamp.

Preferably use a damp cloth to wipe glass and metal pendants.

---

FDB Møbler is manufactured using only FSC-certified wood. FSC certification ensures that no more trees are felled than the forest can reproduce. At the same time, the FSC label guarantees that forest animals and plants are protected, and that the forest workers receive training, safety equipment and a reasonable pay. When you, the consumer, choose FSC, you are helping to protect the natural environment and ensure proper social conditions in the forests where the wood is sourced. In choosing products made with FSC wood, you are supporting forest owners who have chosen to manage their forests in a way that respects the people who work there and the fauna for which the forest is their habitat.
